WHEREAS, pursuant to Section 208 of the Federal Water Pollution Control Act Amendments of 1972, P.L. 92-500 (hereinafter called "the Act"), the Administrator of the United States Environmental Protection Agency has by regulation published guidelines for the identification of those areas which, as a result of urban-industrial concentrations or other factors, have substantial water quality control problems (40 CFR Part 126); and

WHEREAS, the Larimer-Weld Regional Council of Governments area (hereinafter called "the Area") satisfies the criteria contained in the Act and guidelines, and designation of the area pursuant to Section 208 and those guidelines is desirable; and

WHEREAS, such planning process and waste treatment management system is a necessary and significant measure to control present point and non-point sources of water pollution and to guide and regulate future development and growth in the area which may affect water quality, in order to prevent, abate and solve existing and potential substantial water quality control problems;

NOW, THEREFORE, IT IS RESOLVED that the (~~CITY/Town/COUNTY~~) of BERTHOUD, recognizing that the Larimer-Weld Regional Council of Governments area has substantial water quality control problems, supports designation of the Area pursuant to Section 208 and the EPA guidelines.
