

Berthoud YAC Meeting Summary

April 1st, 2021

Start time: 6:35 PM

Meeting adjourned: 7:21 PM

Attendance:

Maddox, Maggie, Grazia, Daniel, Kenyan, Maureen, Anny, Angie

Last meeting, we held an election to vote for people applying for new positions. Today we went over what we started working on since the previous meeting. We completed the mask video which shows people including police officers, teachers and others explaining why they wear a mask during COVID-19. We discussed how we could get the video out there, whether to post it on social media, display it on the plasma TVs at the high school or both. We also went over new volunteer opportunities. Maddox, Grazia and Kenyan all signed up to put volunteer opportunities out there.

This meeting we also discussed new ideas on projects we could do. We came up with multiple ideas including a trash cleanup day that could perhaps take place in early June after graduation on May 29th. Collaborating with the town board on other projects, holding an around the table discussion with other groups, and a presentation that could take place on April 27th on our committee's accomplishments, multiple people already said they cannot make it that day but so far Grazia and Kenyan plan on volunteering in participating in that. Lastly, we quickly discussed new activities we could do (in real life, after vaccines start rolling out especially among our demographic and the general public after eligibility starts in Colorado on April 2nd). 3rd of July activities with the annual Berthoud Days as well as cornhole were brought to the table. We ended the meeting with no objections to anything that was discussed this meeting and adjourned the meeting at 7:21 PM.
