### Carter Lake Pipeline

The Town of Berthoud is committed to maintaining a reliable and high-quality water supply for our community. As part of this effort, we are making key improvements to the Carter Lake Pipeline, a critical source of raw water for our Water Treatment Plant. This project includes replacing aging infrastructure, installing new high-capacity pipeline sections, and upgrading pump stations and valves to enhance efficiency and reliability. These improvements will expand our water transmission capacity, reduce the risk of supply interruptions, and support future growth. During construction, you may notice a change in the taste of your water as we temporarily rely on different water sources to maintain service. While the taste may vary, please rest assured that the Town continuously monitors and tests the water to ensure it meets all state and federal safety standards. Recent rate increases have made these essential upgrades possible, ensuring we can continue delivering safe, consistent, and high-quality drinking water. We appreciate your support and patience as we invest in Berthoud's water future.

### North Berthoud Parkway Trail Connection

What's happening on the west side of North Berthoud Parkway? We're closing the gap on the North Berthoud Parkway Trail. Paid for in part by a \$500,000 grant through the Revitalizing Main Street Program, the new portion of trail will extend from Water Avenue up to County Road 10E and include a pedestrian crossing from Water Avenue to the trail. We are expecting to finish up by late spring. (Weather permitting, of course.)

Future Berthoud Parkway Trail

## Brand Assessment

The Town of Berthoud is currently in the process of assessing its brand. Our brand helps define who we are as a town, how neighboring cities see us, and how we want to be perceived as we move forward. We cannot do this alone. Because no two lives are the same, we need voices from around our community to share their experience of being in Berthoud. Look for an upcoming survey, and be sure to respond. We want to hear about what you love and don't love and what you think other people should know about Berthoud.

## Spring Municipal Codes

It's almost spring, and that means the snow will melt, the weeds will grow, and our windows will be open. Town municipal codes are in place to help us all be good neighbors, so please take care of weeds in your yard, don't blast music late into the night, and pick up after your pets. These small actions make a big difference in your neighborhood and with your neighbors and help to keep Berthoud a wonderful place to live.

## Sometimes We Need A Little Help

What were once simple chores can become difficult with age, illness, or injury. If you need **A Little Help** around your yard with weeding, planting, or trimming some shrubs, reach out to A Little Help. They are not a landscape company, but their team of volunteers can help keep your yard trimmed up and weed-free. Give them a call at **970-412-9396** or e-mail **Marc@ALittleHelp.org** to sign up for A Little Help around your yard.
