The Results of the Berthoud Brand Assessment Are In!

But first, we would like to extend a heartfelt thank you to everyone who took the time to participate. We truly appreciate the time you took to share your thoughts. While we weren't surprised by the results, it's nice to see that we know our community. We offer small-town charm, a range of family-friendly amenities, and incredible mountain views. The survey also revealed that while people want more restaurants and mom-and-pop shops, they don't necessarily want any more growth. Fun fact: Smart growth is a crucial factor for a charming downtown corridor where great local restaurants and small businesses flourish. The next step in this process will be to find someone to assist us in updating our logo. While we love the current iteration with its mountain view, it's a good time for a refresh. We hope you'll visit Berthoud.org/Survey to read the results of this survey.

Remember the 4Ds when you head outdoors for summer fun

Even if you don't get bitten by mosquitoes often, people ages 55 and older are at higher risk for severe symptoms like tremors, vision loss, numbness, and paralysis if they get West Nile virus.

People with health conditions such as cancer, diabetes, and hypertension, or who have had organ transplants or are taking medications that suppress the immune system, are also at risk. As you're planning your summer activities, remember the 4Ds:

Drain any standing water in your yard on a weekly basis.

Dress in lightweight, long-sleeved shirts and long pants while outdoors early in the morning or the evening.

Defend yourself with an approved mosquito repellent.

Dawn and Dusk are times when mosquitoes are most active, so limit your time spent outdoors during these periods.

Berthoud Market at Town Park - Saturdays, 9:00 AM - 1:00 PM

The Berthoud Market at Town Park

Summer is a wonderful time to be in Berthoud. There are free outdoor concerts at the Little Thompson Museum, an adult reading challenge at the Berthoud Library, where you can win prizes, and volunteer opportunities at the community garden at Pioneer Park. One of our favorite outdoor spaces is Berthoud Town Park. Newly renovated with a fantastic playground, a refreshing natural stone splash pad, and ample shade, it is now the new home to the Berthoud Market. Every Saturday until September 27, from 9:00 am to 1:00 pm, the west side of the park is lined with local vendors selling baked goods, grown goods, and handmade goods. Wildfire Arts Center is also on hand every week with a free craft for the kids to create. So, join us this summer and enjoy live music, grab a bite to eat, and explore a wide selection of locally owned booths while you connect with your neighbors.

Visit Berthoud.org/Market for more information.

Hot Paws

Your puppy's paws are sensitive and can easily get burned on hot pavement during the summer months. High temperatures can make surfaces like asphalt, concrete, metal, and rocks unbearable for dogs to walk on. One way to determine if the surface is too hot for your dog's paws is to feel the temperature by pressing your palm on it. If it's too hot for you, it's too hot for them. Other tips to protect your pups:

- ▶ Avoid hot surfaces, such as pavement or concrete, during the hottest part of the day.
- ▶ Time your walks for the cooler parts of the day, like early morning or late evening.
- ▶ Protect your dog's paws from the heat with protective booties.

Smart Irrigation Month

July is Smart Irrigation Month, so it's a great time to remind everyone that lawns should only be watered between 6:00 p.m. and 10:00 a.m. This regulation not only promotes water conservation, but following it helps preserve our water resources and supports the health of your lawn.
